[📍 Lahore, Pakistan](#)

Summary

Skilled web developer proficient in HTML, CSS, JavaScript, React, with a focus on usability and design. Experienced in managing cross-functional teams, utilizing jQuery, Bootstrap, Material UI, and GitHub for version control. Integrates Python FastAPI for backend functionality. Passionate about continuous learning and emerging technologies. Excited about Docker containerization for efficient deployment and scaling, creating lightweight, portable, and self-sufficient containers for seamless deployment.

Soft Skills

Communication | Creativity |
Problem-Solving | Critical Thinking
| Time Management

Education

BS MATHEMATICS

University of Gujrat [📍](#)

09/2018 – 11/2022 | Sialkot, Pakistan

CGPA: 3.74 / 4.0, Second highest in the class

- Advanced algorithms for precise problem-solving.
- Math-driven coding proficiency.
- Expert in logical, systematic solutions.
- Application of advanced problem-solving concepts.
- Innovative solutions through mathematical insights.

Professional Experience

Front-End Developer Intern

TechnoSofts, Sialkot, Pakistan

09/2023 – 10/2023

- Enhanced UI and functionality of web apps.
- Optimized responsiveness for improved UX.
- Gained practical user-facing experience.
- Designed, and developed intricate websites.

Front End Developer

Self-Employed (01/2023 – present)

- Used HTML, CSS, JS, and React for UI.
- Integrated jQuery, Bootstrap, and Material UI.
- Mastering React Hooks for state management.
- Expert in functional components
- State manages data, props pass data.
- Python, FastAPI, Next.js, and Tailwind CSS.
- Creating Docker images for efficient deployment and scaling.

Projects
